

DECLARATION

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name;

that I verily believe that I am the original, first and joint inventor of the invention entitled
RESTRAINING GASKET FOR MECHANICAL JOINTS OF PIPES described and claimed in the
specification filed herewith;

that I have reviewed and understand the contents of the specification, including the claims;

that I do not know and do not believe the same was ever known or used in the United States of
America before my invention thereof, or patented or described in any printed publication in any country
before my invention thereof for more than one year prior to the filing of the application filed herewith; I
acknowledge the duty to disclose all information which is material to patentability as defined in 37 CFR
1.56;

that the same was not in public use or on sale in the United States of America more than one
year prior to the filing of the application filed herewith;

that the invention has not been patented or made the subject of an inventor's certificate issued
before the date of filing of the application filed herewith in any country foreign to the United States of
America on an application filed by me or my legal representatives or assigns more than twelve months
prior to the application filed herewith;

that I acknowledge my duty to disclose information of which I am aware which is material to
the examination of this application, and that I believe such information is included in the above
identified application; and

that no application for patent or inventor's certificate on this invention has been filed in any
country foreign to the United States of America prior to the date of filing of the above identified
application by me or my legal representatives or assigns.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made
on information and belief are believed to be true; and further that these statements were made with the knowledge that
willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of
Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application
or any patent issued thereon.
